PROFILE

I'm a Brazilian currently living in Italy since 2019, with two bachelors in Digital Design and Information Systems. Acquired three years of experience as a Full Stack Web Developer on my last internships and job with Ruby on Rails in Brazil. I'm currently specializing myself with courses, and working on a NodeJS & React project as REST APIs, and also on the GraphQL query language. At the moment, I'm looking for a position as a Full Stack Web Developer on MERN stack.
